

POWER TRAINING ACADEMY

CHERIE CLUB

Are you Google-able?

Presented by: Sean Dercksen

LEARN THE INTERNET & GET AHEAD OF THE COMPETITION

(Free notes offered with this talk)

Don't get me wrong, **Google is not the only way** moving forward, but if your forward thinking is not an online business system, you & **your company will loose out.**

Most of us can get by, using Google, as an example, to get around on the Internet, but we don't realise what powerful tools search engines are. **I'll teach you all the shortcuts to get accurate results – quickly!**

Additionally, you will learn how to take your business (regardless of size, age or reputation) high up on a Google search. **A great search result** gives you all the obvious advantages you want in order to attract clients.

To close the course off, I will show you how to **convert a static database into a network** or down line, which generates leads, reputation and ultimately money.

If you take just one idea home and implement it into your business, I will have done my job.

SO, HOW DO I BOOK?

- ✓ Call or e-mail us on the numbers below
- ✓ We will give you more information, if necessary
- ✓ We will send you a confirmation e-mail of the date, time, venue etc.

Presenter - Sean Dercksen
